

## SSCHL Winter 2025 Transactions

Following our exciting inaugural season of the SSCHL, which showcased a thrilling array of close games, unexpected upsets, and a strong sense of sportsmanship and camaraderie, we are announcing several roster changes for the upcoming winter session. These adjustments are primarily driven by personal circumstances and our ongoing commitment to maintaining a competitive balance across both divisions. As always, our goal is to provide each team with a fair shot at victory each week, with team attendance playing a crucial role in achieving this. If any of these changes do not yield the desired outcomes, we are prepared to make further adjustments as necessary. Below are the roster updates for the winter 2025 season:
